May 28, 2009 Agenda Item 7.4

#### Memorandum

DATE:

May 13, 2009

TO:

CMA Board

FROM:

Plans and Programs Committee

RE:

Transportation Fund for Clean Air (TFCA): FY 2009/10 Program

## **Action Requested**

It is recommended that the Board approve the FY 2009/10 TFCA Program. The entire \$1,758,020 is proposed to be programmed in this cycle. Conditional approval is proposed for \$100,000 of the program to allow for additional information to be gathered for the recommended Bike to Work Day project's cost-effectiveness evaluation.

#### Discussion

As detailed in the attachment, the FY 2009/10 TFCA Program recommends funding for ten projects. The amount of TFCA funding recommended for each project is dependent upon the results of the required cost-effectiveness calculations. Staff is proposing conditional approval for \$100,000 of the program recommended Bike to Work Day project pending the eligibility determination and cost-effectiveness calculations. Bike counts scheduled for the 2009 Bike to Work Day will include "pre" and "post" counts which will assist in evaluating the project's cost-effectiveness. Based on the outcome of the evaluation, staff will include the project in the program or propose revisions to the approved program.

Since the approval of the draft program, the Air District has indicated that Pleasanton's Bernal Bridge Bike Lanes and Sidewalks project is not eligible for TFCA funding. As a result, the \$58,000 draft recommendation for this project has been moved to other projects in the FY 2009/10 TFCA program:

- \$50,000 in additional funds to Alameda County's Fairmount Campus Shuttle project.
- \$8,000 in additional funds to LAVTA's Route 9 Operations project (formerly Route 50).

The draft program's remaining balance of \$61,133 has also been added to LAVTA's Route 9 project, for a revised total recommendation of \$82,133.

### **Financial Impact**

This programming action has no financial impact to the CMA. The TFCA funds included in this funding program are being made available by the Bay Area Air Quality Management District (Air District). Costs associated with the CMA's administration of the TFCA program are included in the current CMA budget.
